

PanIIT USA Board Member

Witty Bindra

Witty Bindra is a Geotechnical Engineer with over twenty years of industry experience with a major focus in commercial development & construction, concrete & asphalt pavements network operations, monitoring and evaluation (M&E) management. In 2009, he joined Goldshire Group and hasn't looked back. He is the urbane young CEO of Goldshire which also has a multi-source, global strategic procurement division offering steel, equipment and chemicals to energy and Oil & Gas Companies in the US, India and Mexico. Witty has gained progressive experience in both private and public sectors performing complex performance-based asset management projects and has an in-depth understanding and experience in public private partnership, financial planning, due diligence, cost estimating, M&E and O&M functions.

In 1995, he was the recipient of the Confederation of British Industry Scholarship to train in the UK. He sits on the editorial advisory committee of the trade magazine, *Geosynthetics* and has published several technical papers in the US and overseas. A veritable globetrotter who has lived and worked in Singapore, the UK, Australia, Germany, New Zealand, Mexico and in cities within the US, Witty, put down roots in Texas in 2004, the year he married his wife, Lubeena. They are proud parents to sons Tegh and Harekas.

When he lived in New Zealand, he became the first turbaned Sikh to be accepted as a commissioned officer into the Royal New Zealand Navy Volunteer Reserve. An accomplished student, Witty earned a Bachelor's degree in Civil Engineering and a Diploma in Construction Management in India. He has a Masters Degree in Geotechnical Engineering from IIT in Delhi, and a MBA in Project Management and International Business from Massey University, New Zealand.
