

PanIIT USA®

A Trusted Resource for IIT Alumni in the U.S.A.

PUBLIC SERVICE ANNOUNCEMENT - PANIIT USA

Houston, TX (August 28, 2017): The recent disaster caused by Hurricane Harvey has left around 13 million people from Corpus Christi to New Orleans under flood watches and warnings. The city of Houston has also borne the brunt of the storm; according to a report by CNN this morning, there is no indication the water will stop rising anytime soon, which is of concern to us. PANIIT USA has a large and thriving community in the Houston and greater Texas area and we would like to serve as a resource during this challenging time.

In response to the recent catastrophe caused by the storm, PANIIT USA would like to encourage the Indian Institutes of Technology (IIT) alumni community and their families to contact Kiran Thota at [408-507-1357](tel:408-507-1357) and share a list of resources they can offer to assist the alumni community and their families affected by the storm. We also request families affected by the tropical storm to contact us and share items and resources they are seeking.

We must come together to recover from this deadly disaster that has left thousands without power and homes.

Best regards,
